i. Procurement of MRI Scanner and Associated Equipment,

c) Bids must be received not later than time, date and at the venue mentioned in the Bid Data Sheet. Bids that are received late **WILL NOT** be considered in this procurement process.

1.4.2 **Project Background**

The levels of out of pocket expenditure on health care that are incurred by people across the country are a cause of concern. Expenditure of drugs and diagnostics constitutes a substantial proportion of such spending and this is a matter that needs to be addressed. This initiative is being rolled out under the National Health Mission to ensure comprehensive evidence-based health care at Public Health Facilities and reduce out of pocket expenditure of general public.

1.4.3 **About the Nodal Authority – National Health Mission**

NHM, National Health Mission launched in 2005 as NRHM (National Rural Health Mission) has six financing components:

a) NRHM-RCH Flexipool,
b) NUHM Flexipool,
c) Flexible pool for Communicable disease,
d) Flexible pool for Non communicable disease including Injury and Trauma,
e) Infrastructure Maintenance and 
f) Family Welfare Central Sector component.

Within the broad national parameters and priorities, states have the flexibility to plan and implement state specific action plans. The state PIP includes the key strategies, activities undertaken, budgetary requirements and key health outputs and outcomes.

The State PIPs are an aggregate of the district/city health action plans, and include activities to be carried out at the state level. The state PIP also includes all the individual district/city plans. This has several advantages: first - it will strengthen local planning at the district/city level, second - it would ensure approval of adequate resources for high priority district action plans, and third - enable communication of approvals to the districts at the same time as to the state.

The State PIP is approved by the Union Secretary of Health & Family Welfare, based on appraisal by the National Programme Coordination Committee (NPCC), which is chaired by the Mission Director and includes representatives of the state, technical and programme divisions of the MoHFW, national technical assistance agencies providing support to the respective states, other departments of the MoHFW and other Ministries as appropriate.
