Head end of each bed should have stable electrical supply (at least 3 outlet of 5/15 amps), treated water inlet & drainage facilities. The bidders will be required to keep two oxygen cylinders and two suction machines in each center.

Notes- All the relevant pages will be deemed to be amended as above even if the page numbers have not been mentioned. Amended Format 17 is attached and will be deemed to be replaced by this new Format.

Corrigendum- Revised Format -17

Format 17: Technical Proposal Form- REVISED [part 1 pages\79.pdf](#)

1. This will be the base document and evaluations will be based on this FORM.
2. Not filling all the columns of this FORM may lead to REJECTION of the bid.

Bidder need to submit the proposal in line with the requirement as defined in RFP Part I, Part II and Part III and should duly submit technical literatures.

SL	Item name with Make and Model Number	Minimum Quantity required	Quantity Offered	Whether Product Catalogue attached highlighting the required specification.	Whether Authorization attached from OEM/ Manufacturer*
01*	Haemodialysis Machines				
02*	Dialyzer Pre-processors				
03*	Dialysis Chair/ Bed				
04*	Defibrillator with ECG Machine				
05	Emergency Patient Transfer Trolley				
06	Ambu Bag-				
07	Weighing Machines				
08	Computer with Printer				
09*	Water Treatment Plant-1000 litres / hour				
10	Bins as per Waste Management Codes				
11	Minor Surgical Tools- SET				
12	Digital Multimeter				
13	UPS for 30 Minutes back up and Generator with load capacity sufficient to run the Dialysis Unit.				
14	Dressing Set- 10 per shift				

**Annexure-IX- CORRIGENDUM NOTICE
RFQ cum RFP FOR Selection of HDU-SP- NHM**

- The Bidder also need to provide compliance of all the Equipment as per following format –

Point by point compliance on the specifications are required item wise for the equipment

SL	Equipment	Make and Model number	Compliance to specifications (Yes / No)	Deviations, if any with reasons
01	Haemodialysis Machines			
02	Dialyzer Pre-processors			
03	Dialysis Chair/ Bed			
04	Defibrillator with ECG Machine			
05	Emergency Patient Transfer Trolley			
06	Ambu Bag-			
07	Weighing Machines			
08	Computer with Printer			
09	Water Treatment Plant-1000 litres / hour			
10	Bins as per Waste Management Codes			
11	Minor Surgical Tools- SET			
12	Digital Multimeter			
13	UPS for 30 Minutes back up and Generator with load capacity sufficient to run the Dialysis Unit.			
14	Dressing Set- 10 per shift			

***Manufacturer's Authorisation Form, Make and Model numbers and Product Catalogues for items Hemodialysis Machines, Dialyzer Reprocessor, Dialysis Chair/Bed, Defibrillator and Water Treatment Plant are MANDATORY and non compliance to this may lead to REJECTION of the bid.**

- The Bidder also need to provide compliance of all the Manpower provisions as per following format – (Manpower is proportionately reduced as per 5+1 Machines requirement.)
Nephrologist is required as per reduced minimum qualification in each center which is MD-Medicine with 6 months training from any recognized training institute.

SL	Staff Designation	Minimum Qualification and Experience required	Qualification and Experience of the offered staff	Number of Staff required	Number of Staff offered	Compliance (Yes / No)	Deviations, if any
	Nephrologist						
	Medical Doctor
