**Gaps in Immunization :**

BCG is reported 64% to estimated,

Jalilpur is showing given 0.4% Hep.B-0 dose to the Est. live births and rest blocks are showing >50%.

Usually BCG, OPV0 and Hepatitis B0 doses are given at birth time but reporting shows all are not given at the time of birth even at DH showing 4% and CHCs showing very low, it is showing service gap at facility level So here is need focus on monitoring.
